

Hi Little Buffalos!

Summer is the perfect time to start saving! Whether it's money from chores, birthday gifts, or your first lemonade stand. At Interior Federal, we have cool ways to help you grow your money while you enjoy your summer fun!

THREE WAYS TO START SAVING

Savings Account

This is your own account where your money stays safe. You can add money whenever you want, and over time, you'll see it grow. It's a great way to save up for things you want soon, like a book, game, or toy.

Accumulator Certificate

If you're saving for something bigger, like a bike or tablet, an [Accumulator Certificate](#) can help. You add money regularly, and it earns more interest than a regular savings account. That means your money grows faster the longer you save.

Secondary Savings

Already have a savings account? Your parents can open a [Secondary Savings](#) account for you to save and set aside for something special. It helps you keep your goals organized!

Why Save?

Saving money helps you:

- Get ready for something you really want
- Learn how to make smart money choices
- Feel proud when you reach your goals
- Build good habits for the future
- Watch your money grow over time

Start Your Savings Adventure Today!

When you open your first Accumulator Certificate with the Credit Union, we'll send you a stuffed little buffalo to celebrate the start of your savings journey.

ACTIVITY

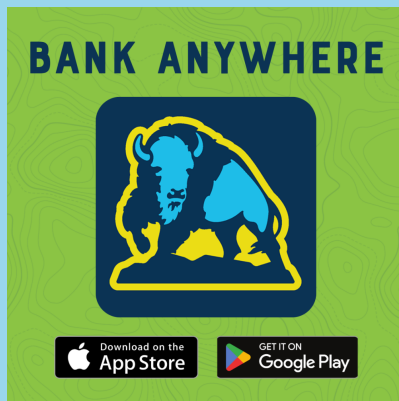

Check out the fun and educational [games](#) we offer for our Little Buffalo members!

Download the "Start Small and Save Up!" worksheet and track how much you can save this summer.
